Our industry is focused on driving growth by nourishing the global workforce when they are away from home. SHFM accomplishes this goal by being the pre-eminent national association serving the needs and interests of professionals like you in corporate foodservice and workplace hospitality. Our principal role is to provide education and one of a kind networking uniquely designed to support your success.

**OUR MEMBERS MAKE A DIFFERENCE**

Our members represent all facets of workplace hospitality across the United States and globally. SHFM creates ongoing industry dialogue and unites organizations with original research, relevant programming and networking opportunities throughout the year, at national conferences and local events. Our members are:

- **Corporate liaisons and self-operators** who work on-site in businesses and corporations, facilitating corporate dining and workplace hospitality at companies of all sizes. They include some of the most recognizable companies serving our nation.

- **Integrated facility managers** who are individuals whose company is contracted by the owner company to manage outsourced contract services including food, conference, fitness and other workplace amenities, but who’s company does not directly provide or self-manage any of those services.

- **Foodservice contractors** who provide insights, solutions and culinary experiences to meet the ever-changing needs of the thousands of employees our liaisons represent.

- **Consultants and suppliers** who provide the innovative products and services that keep the world of business dining evolving.

- **Young Professionals** from all membership segments mentioned above and special initiatives such as the Rising Star Scholarship program designed for Young Professionals.

- **Education members** who represent faculty and students at hospitality and restaurant programs across the country.

*In our business, relationships matter.* SHFM is the gateway to ongoing dialogue with hundreds of your peers — the powerful, personal connections that last.
